

HODGCO AUSTRALIA

Looking for performance?
It's all about the wheels!

**HODGCO
DELIVERS**

- Highly productive
- High speed finishing
- No duck walking
- Easy to operate
- Efficient ripper
- Built Australian tough

Manufacturers of:

- Bulk-A-More 6000 Series Grader Scarpers
- Hodgco Cushion Hitch Drawbars
- Drawbar Ball Connectors
- Laser Towers

About us:

- JR Hodge & Co Pty Ltd, trading as Hodgco Australia, have been in business since 1975: creating, designing, and manufacturing land graders, laser graders and spreading equipment.
- Started by John Hodge in a garage, the initial stages of the company saw JR Hodge & Co Pty Ltd laser contracting for many years, using the grader scarper later made famous by Alfarm Industries and Horwood Bagshaw (still in production today, after 44 years, with only minor changes since its initial production).
- Since retiring from contracting in 1997, JR Hodge & Co Pty Ltd has focused on design improvements and manufacturing for grader scrapers, cushion hitch drawbars and the drawbar ball.
- With the second generation now taking over, Hodgco has installed more modern equipment, with the production of the Hodgco Bulk-A-More 6000 Series Grader Scraper being the new focus of the company.

The **BULK-A-MORE 6000 Series Grader Scraper**

- Capacity: 17m³
- Mass
 - 12.3t tare weight (moderate)
 - Drawbar down load: 3t when empty, 7t when loaded
- Dimensions
 - Length: 9578mm
 - Width: 4750mm
 - Cutting width: 4280mm
- Key features
 - Wheels: 12.00 x 20, 18ply tyres (3 each side)
 - 3-way walking beam; all wheels equally loaded, running on own path
 - Very simple and robust cross leveler
 - Grease lubricated and sealed pivot bearings
 - Auto-greasing available
- Bowl
 - Traditional tipping design with a high 62-degree tipping angle
 - Unique hinge design
- Apron
 - Radical action with rams on outside of body (no rollers or tracks required)
 - High lift (operator can easily see cutting edge)
 - Sequence valve operation (optional)
- Moldboard
 - Proven low profile for easy loading
 - Very high strength and rigidity
 - Cutting edge common with HB and Alfarm
 - Max clearance under blade: 489mm
 - Max cutting depth: 285mm

The BULK-A-MORE 6000 Series Grader Scraper

- Ripper
 - Rear mounted
 - 11 tynes with shin guards
 - Ripper forms a counterweight to reduce tractor down load
 - Easy to replace shear bolt design
 - Max ripper depth: 285mm
 - Max clearance under ripper point: 460mm
